Claims Letter for UNIRAK
Universal Telescopic Bed Rack App.# 09/922,529

What I claim as my invention is: I, Cody Lambert have invented an apparatus that is used in the bed of a pickup truck to support one or more bicycles. When the apparatus is not being used in the bed of the truck, it can also be used for storage in ones garage or at a campsite while camping.

Also, the apparatus does not require the removal of the front wheel from the bicycles. The retention device that keeps the bicycles from rolling out of the rack is unique in itself.
